

BOOMS LIFTS

LiuGong's range of Telescopic & Articulated Boom Lifts have also been designed from the ground up to ensure reliability and safety with the user in mind. The new electric models will last all day and will supply more power and torque than expected of an engine powered machine. With a better return on investment and performance than engine powered machines, LiuGong electric range of EWP's are ready to work.

DESIGNED & TESTED FOR AUSTRALIAN CONDITIONS

Vertical Mast Lifts

LiuGong's new range of Vertical Mast Lifts have been developed to operate in tight spaces while offering exceptional performance, safety and LiuGong's trademark tough quality.

ELECTRIC SCISSOR LIFTS

LiuGong's full range of Electric Scissor Lifts are designed with a safety-first mindset, incorporating a pedestrian proximity alert and user anti-crush system to automatically warn the operator and bystanders of potential hazards. With features that enhance the user experience and components designed to be easily maintained and inspected, LiuGong's Electric Scissor Lift range is an excellent choice for hire companies and operators alike.

Rough Terrain Tracked Crawlers

When it comes to the most difficult of terrains, LiuGong's tracked scissor lifts are ready for the challenge. Equipped with outriggers and self-leveling, the tracked scissors are built to traverse and conquer the roughest of building sites.

TOUGH WORLD, TOUGH EQUIPMENT

ON SITE. ALL NIGHT.

LIGHT TOWERS

The Boss Light Tower Series offer a mobile solution for illumination of any worksite. With long run times and solar panels, these robust and cleverly designed light towers are ready to light up the night.

ALL TERRAIN.

MOBILE SITE OFFICES

Accommodation, offices, toilets, showers wrapped up in a mobile solution, towed to site and powered from Solar & Batteries, 240AC or generator, these self-contained site vans are fully customisable.

YOUR BEST CHOICE, NO MATTER THE JOB

Merlo is a trusted and leading name in Telescopic Handling, with the unbeatable combination of safety, precision, power and manoeuvrability, Merlo incorporates user friendly design and comfort into this versatile mainstay of any construction site.

TELEHANDLERS

CINGO TRACKED CARRIERS

VERSATILITY AT YOUR FINGERTIPS

Made by Merlo, the Cingo Tracked Carriers are a multi-purpose transporter. Compact and highly adaptable machines, designed to work in tight spaces. Their low centre of gravity provides exceptional stability on slopes, while their tracks allow for low ground pressure and better grip on rough terrain. The versatility and multi-purpose nature of the Cingo, combined with simple to use controls, increases productivity and reduces effort, making it an ideal investment in your business.

TRAILER MOUNTED BOOMS

COST EFFECTIVE SOLUTIONS FOR ANY JOB
